# PANEL III – SERVICE DELIVERY

The **Affordable Care Act** has three primary goals:

Improved Population Health

**Improved Quality Healthcare** 

**Reduced Costs** 

The **Essential Health Benefit** for New Insurance Enrollees includes:

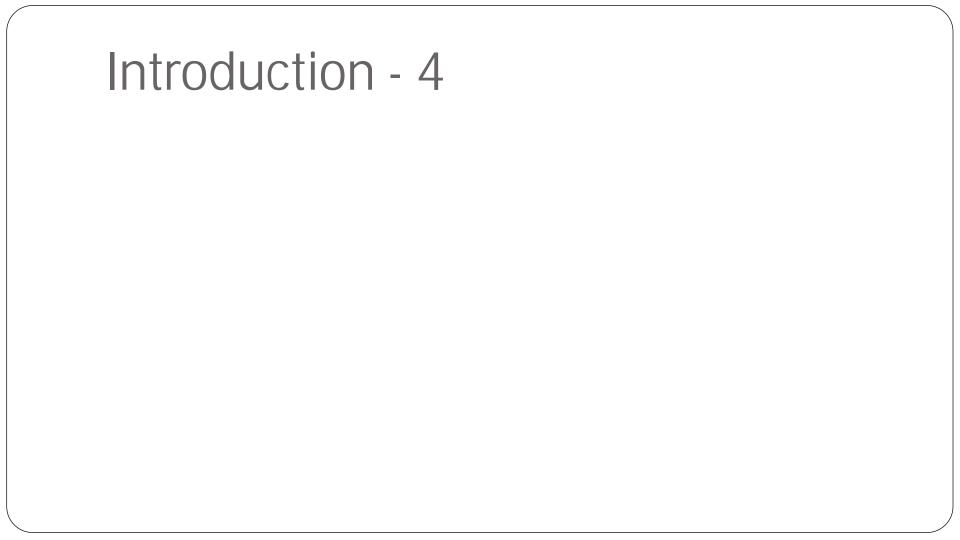

Mental Health and Substance Use Services, which must be at parity.

**Disease Prevention and Health Promotion Interventions** (will also be available to currently insured persons).

**Service Organization** will change from separate specialty services to integrated **health homes** and **medical homes**:

Reduce 25 year premature morbidity and mortality in mental health and substance use clients

Treat behavioral problems in clients with physical/chronic health conditions

**Substance Use Care** will undergo dramatic changes:

# **Public Health Approaches**
