

Date: October 15, 2001

From: WHO Collaborating Center for
Research, Training and Eradication of Dracunculiasis

Subject: GUINEA WORM WRAP-UP # 117

To: Addressees

Detect Every Case (within 24 hours), Contain Every Worm (immediately)!

Table 1

**Number of cases contained and number reported by month during 2001*
(Countries arranged in descending order of cases in 2000)**

COUNTRY	NUMBER OF CASES CONTAINED / NUMBER OF CASES REPORTED													CONT.

** 1 / 1 case reported in April, 3 / 5 cases in May, 5 / 6 in June, 1 / 2 in July, and 4 / 5 in September were imported from Sudan.

Shaded cells denote months when zero indigenous cases were reported. Numbers indicate how many imported cases were reported that month.

Figure 1

Sudan reports about 75% of all cases worldwide so far in 2001 (Table 2). In addition to continuing to export cases to northern Sudan, the main endemic focus of dracunculiasis remaining in southern Sudan is again the major exporter of cases to
